TESTIMONIALS

"Arthur and his crew did such an excellent job capturing our special day! He flew from Los Angeles and his 2nd videographer flew from New York to shoot our wedding! They even came to the rehearsal 2 days before the wedding to get a more detailed view of everything. I stressed for months over finding that perfect videographer because we wanted to have our wedding day in the form of a cinematic film. Our wedding Film was everything we wanted plus more! PERFECTION! I WAS BLOWN AWAY WITH THE FINAL VIDEO!!!!"

Arthur and his team were friendly and focused during our wedding. They were extremely professional yet were fun to work with. They captured the perfect shots from our wedding and we loved the drone footage of our oceanfront hotel. He was timely, considerate and nice. What more could you ask for! He even took his time and did the music edits I asked for. I'd hire them again for future events for sure.

I don't even know where to start! They are VERY VERY PROFESSIONAL take great pride in their work. If you want be able to relive your wedding day over and get every if not more emotion just from watching the video BOOK THEM ASAP!! It made me and my wife ready to do part 2 for our wedding lol. They're very humble & respectful. We honestly felt like they were family!!!! Nothing but GREAT energy... we're glad that we book them it's worth every penny trust! (If we do have part 2 for our wedding this will be the first vendor we book again lol)

TESTIMONIALS

Arthur is an incredible videographer, editor, artist and wedding vendor partner, and his team at ForeverFr3sh is best in class when it comes to video services for your wedding. From the very early conversations we had learning more about his process and our vision as a newly engaged couple for our wedding, Arthur was passionate about his craft, explained multiple options of his pricing packaging and really worked to create a customized experience for the moments we wanted captured and within our wedding budget. I myself as the bride wasn't even sure in early planning stages if I wanted a wedding video, or clips to post on social media, and thought photos would be enough for the day and budget. But I am so thrilled and grateful we decided to invest in a quality videographer vendor with Arthur and ForeverFr3sh Films. He stood apart from any other vendor in his approach and was always responsive to any questions we had, and collaborated so well with our coordinator and other wedding vendors on-site. Arthur has a unique gift in his editing eye for film, as well as a great musical editing ability and used amazing song choices to overlay on our footage, really placing the viewers in the emotional moment and reliving the memorable scenes. His work is truly cinematic and the finished products of his wedding films are so incredible and genuinely evoke a real life documentary and movie reel of your wedding day. We felt an instant connection with Arthur and knew we made the best choice in a videographer, vendor, artist and friend to be a part of our wedding experience. Having the footage and films capturing our wedding day is such a gift we will cherish forever as a married couple, and I cannot recommend any vendor more highly to make this valuable investment in making your wedding day celebration complete. We are so grateful to Arthur and his entire team, and hopefully for any other important milestones in our family and lives we want to celebrate in the future, we will be sure to make ForeverFr3sh Films our first partner in capturing these lifelong memories.

TESTIMONIALS

Forever Fr3sh Films was a godsend. I wanted an extravagant wedding and someone to be able to capture that in order to share with the world and that's exactly what I got. Arthur allowed me to create a package that worked for our big day needs and communicated very well along the way. We did a Love Story film that we wanted to play during dinner and it was recorded 3 days before our wedding due to Arthur living in a different state. He was able to edit and prepare the video to play during the wedding and also perfected it after our big day to be shared with others. Arthur brought another videographer with him on our wedding day and between the two of them, they captured everything! And got better shots than our photographers did (some of which I screenshotted for social media because they were so perfect). A few details I loved was:

- 1) I sang as I walked down the aisle. I sent Arthur a pre-recorded version of me singing the song for our final video and he meshed it PERFECTLY with the real song after my verse was done so the song continued throughout the next part of the video.
- 2) My husband and I performed a song we wrote during our reception. Arthur created a highlight reel of that portion of our reception to share on our social media.
- 3) We received a 23 minute movie of our wedding as a whole. Not ONE detail was missed. It showed how intentional and detailed our wedding was as well as how much fun we had.
- 4) If you can't tell from simply reading this, I am a VERY particular individual. I planned my entire wedding and had a specific vision. When Arthur would send me clips or videos, I provided him with feedback or a switch in music and he shifted things perfectly each time without seeming irritated. I've worked with many businesses that easily get irritated when you want to change or provide feedback on things even though you are the one paying for the service :) but he never once seemed as if my request was a hassle. His goal was truly to make me a happy customer on the happiest day of our lives.
- 5) Because of Arthur, we have a highlight reel, a video of our performance, a Love Story film AND a movie of our wedding day. A picture is worth a thousand words but a video is worth well over a million! DEFINITELY WELL WORTH THE MONEY!
